Re: Joy to Life Foundation's Pink Glove Project

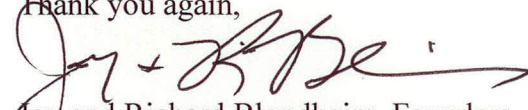

Dear Jennifer,

The Joy to Life Foundation would like to thank Microflex for their donation of 8000 Pink Gloves for our Pink Glove Project. It has been a huge success.

Our Pink Glove Project began over 6 months ago at our Walk of Life annual fundraiser for breast cancer and has just recently been completed. We know Microflex will be pleased with the results. Your generosity was instrumental in bringing together our community like never before and because of this, we can never thank you enough for what you have done for breast cancer awareness in our state.

Please feel free to use this video as you see fit in your marketing for Microflex. We would appreciate it, if you would help drive people to our web-site www.joytolife.org in order to download this video or have them go to our Internet Store to purchase a DVD. One hundred percent of the funds raised from this video will be used to provide free mammograms and breast cancer awareness programs for women in Alabama.

Thank you again,

Joy and Richard Blondheim, Founders
Joy to Life Foundation
